

We want to be sure of our quality. That is why we completely manage the internal production process, inspecting it step-by-step: choice of materials, CAD-CAM design, CNC machining and manuals, finishing, assembly and delivery. We only entrust a few specific treatments to rigorously selected external suppliers whose results we test. In this way, we can apply maximum care and accuracy throughout the production chain, focusing on finding new solutions. That often arise from working closely with customers.

A COMPLETE PRODUCTIVE CHAIN OF QUALITY AND SUSTAINABILITY

QUALITY

“ Manufacturing in a innovative, efficient and sustainable way. The only choice to prosper in the future.

CARE, PRECISION, INVENTIVE

A QUALITY RANGE

PRODUCTS

INNOVATION
PASSION, KNOWLEDGE

We dedicate our ability to listen, up-to-date know-how and before and after-sales care to them: we solve problems with a simple phone call, we deliver fast, and our warehouse is even open at lunchtime. We do everything to ensure fast and decisive assistance. But our commitment goes beyond that. We ensure health and safety in the workplace regulations are enforced. We respect the environment and communities in which we operate. Producing in an innovative, efficient and sustainable way is the only choice to prosper in the future.

“ With respect to regulations, the values that set us apart are healthy areas and environments.

ELECTRONIC TAPPING UNITS

Compact, easy to apply, suitable for high speed. We provide better performance and control by using a brushless motor and encoder.

MECHANICAL TAPPING UNITS

The high-efficiency solution for directly threading inside the dies. Without expensive recovery costs. Our best seller for over 30 years.

STANDARD ELEMENTS FOR DIES

We have been producing columns, bushes and ball cages for 30 years. We are the only ones to produce cages with rollers in Italy and mixed cages with rollers and balls in the world.

“ Do you have any special requirements? We will take care of them. A quality, comprehensive and customisable range

A RANGE THAT HAS GROWN OVER TIME: RELIABLE SUPPLIERS, SELECTED MATERIALS
